Education

B.E. in Computer Science and Engineering

2022 – 2026

Ballari Institute of Technology and Management, Ballari

CGPA: 8.81/10

Pre-University Course (PCMB)

2020 – 2022

SC Gurukula PU College, Karadyal

Percentage: 73.66%

SSLC

2019 – 2020

Sri Channabasaweswara Gurukula Residential High School, Kardyala

Percentage: 95.36%

Skills

Programming Languages: Java, Python, JavaScript, SQL

Web Development: React.js, HTML, CSS, Node.js, Express.js

AI / ML: Machine Learning, Computer Vision, Object Detection

Database/Tools: SQL, MongoDB, Git, GitHub, VS Code

Cloud: AWS

Projects

Exam-Proctoring-System | *React, TypeScript, Node.js, MongoDB*

- Developed a full-stack AI-based exam proctoring system with real-time monitoring and risk scoring.
- Implemented face detection, gaze tracking (MediaPipe), and phone detection (YOLOv8) to identify suspicious activities.
- Built a secure backend with Node.js, Express, and JWT authentication for session tracking and event logging.
- Designed an interactive React dashboard for live monitoring, alerts, and evidence-based review.

Fraud-Detection-Platform | *React, Node.js, MongoDB, Python*

- Developed an end-to-end fraud detection platform with real-time transaction scoring and decisioning (approve, verify, block).
- Built machine learning models using Scikit-learn/XGBoost to predict fraud probability and integrated them into backend APIs.
- Designed a full-stack system with React dashboard for analytics, trends, and model insights (ROC, confusion matrix).
- Implemented secure REST APIs with Node.js, Express, and JWT authentication, along with MongoDB for transaction and alert management.

JARVIS Virtual Assistant | *HTML, CSS, JS*

- Built a browser-based virtual assistant using Speech Recognition and Speech Synthesis APIs to process voice commands in real time.
- Implemented features for opening applications/websites, answering queries, and auto-performing Google search when commands are not recognized.
- Designed a responsive UI with microphone controls, voice wave animations, and automatic timeout handling for silence detection.
- Integrated dynamic command execution and interaction logic, improving user task efficiency and demonstrating core front-end development and voice automation skills.

Certifications

- **Google Cloud Career Launchpad Cloud Engineer track (2025):** Google Cloud Edu
- **AWS Cloud Quest: Cloud Practitioner Badge (2025):** Amazon Web Services Training and Certification
- **AWS Internship Certificate (2026):** SMARTBRIDGE
- **Python Programming (2024):** EZ Training & Technologies
- **Python Foundation Certificate:** Infosys Springboard
- **Data Structures and Algorithms using Java:** Infosys Springboard
- **Database and SQL:** Infosys Springboard

Honors & Awards

Best Cutting-edge Technology Award	May 2025
<i>HACKVYUHA 2025, National Level Hackathon, BLDEA College, Vijayapura</i>	<i>Winner</i>
Top 7 Finalist (among 50+ teams)	August 2024
<i>HACKB-24, Inter-College Hackathon, Ballari Institute of Technology and Management, Ballari</i>	<i>Finalist</i>
Top 10 Finalist (among 40+ teams)	December 2024
<i>IGNITRON 2K24, State-Level Hackathon, G. M. University, Davanagere</i>	<i>Finalist</i>
Shikshana Shikhara Prashasti Puraskara	2020
<i>For securing 95.36% in SSLC Board Examination</i>	<i>Awarded</i>
